ICRN

Activities in the Inter College Radio Network will close down on May 10, (Sunday) at midnight. This will involve all three ICRN stations: WTSC - FM, WNTC, and WCCT. The carrier current stations will remain on the air, but will not originate programming. WNTC will rebroadcast WABC and WCCT will rebroadcast a Canadian station. It continues through May final exams. The purpose of this shutdown is to provide both aid personnel and management with time to study before final exams. The ICRN will resume regular operations during the second week of September.
